

HSE's Example risk assessments and other guidance

How to use this resource:

Below are HSE's example risk assessments and other relevant resources for your reference. You can learn the common health and safety hazards present in specific industry sectors and the common control measures (good practices), etc. This is for your reference only, you cannot just copy and paste any information to your report, your risk assessment must comply with the assessment criteria defined in the NEBOSH NG2/IG2 assessment guide.
